BENEFITS OF AN INTERNATIONAL EXPERIENCE

For students in Italian, an international experience can be an integral component to the discipline. Upon return from studying abroad, many students report that they are equipped with greater language proficiency, deeper knowledge and understanding of various cultures, as well as a broader, more global perspective that is often valued by employers.

ACADEMIC & TIMING CONSIDERATIONS

Depending on the program you enroll in, you may receive either direct or transfer credit for the courses you complete abroad. All students wishing to study abroad must have a GPA of 2.5 or higher, depending on the program. Planning ahead is key to finding a program that meets your academic and personal goals. The Italian department and the International Studies Office recommend planning for your international experience as early as first year, and encourage you to meet with an education abroad advisor, as well as your academic advisor.

STUDENT TESTIMONIAL

“Studying abroad in Italy was not just a vacation: it was an incredible experience that shaped me in almost every facet. Experiencing Italian culture allowed me to analyze the art more deeply and obtain an Italian perspective...Going abroad also allowed me to learn a language I probably would have never been able to master in the United States. In Siena, not many people speak English...and that charming factor forced me to speak Italian in order to communicate...I certainly attribute my experience in Sienna to the person I am today.”
