BENEFITS OF AN INTERNATIONAL EXPERIENCE

For students in Computer Science, an international experience can be an integral component to the discipline. Upon return from studying abroad, many students report that they are equipped with greater language proficiency, deeper knowledge and understanding of various cultures, as well as a broader, more global perspective that is often valued by employers.

ACADEMIC & TIMING CONSIDERATIONS

Depending on the program you enroll in, you may receive either direct or transfer credit for the courses you complete abroad. All students wishing to study abroad must have a GPA of 2.5 or higher, depending on the program. Planning ahead is key to finding a program that meets your academic and personal goals. The Computer Science program and the International Studies Office recommend planning for your international experience as early as first year, and encourage you to meet with an education abroad advisor, as well as your academic advisor.

STUDENT TESTIMONIAL

“Studying abroad was an eye opening experience for me. Being a computer science major, I was often not exposed to other aspects of academics outside of engineering. It was really great getting outside of my comfort zone and experiencing new topics and new cultures. Learning another language was also an incredible part of this experience. Studying abroad also really showed me how connected the world is. Technology plays a big role in this connectivity and living in Vienna and travelling through Europe showed me just how much of an impact technology could play. It helped me understand what I wanted to do after college and how projects I work on in the future could affect many different people all around the world.”

- Liam Dwyer, IES: Austria: Vienna : Culture and Society

International Opportunities in Computer Science

This is just a starting point and you are not limited to these options.

Asia
- China, UVA Exchange: Fudan University
- China, UVA Exchange: Peking University
- Hong Kong, UVA Exchange: Hong Kong University of Science and Technology: School of Engineering
- Singapore, UVA Exchange: Yale-NUS College

Europe
- Denmark, DIS: Denmark
- Ireland, IFSA: Galway: National University of Ireland, Galway
- Ireland, UVA Exchange: University College Dublin
- Spain, UVA in Valencia: Engineering
- Spain, IES: Spain: Madrid: Engineering, Architecture, and Science
- Sweden, UVA Exchange: Lund University
- United Kingdom, UVA Exchange: University of Birmingham

Middle East & Africa
- Israel, Ben-Gurion University: Israel: Beer-Sheva: Ginsburg-Ingerman Overseas Student Program
- South Africa, CIEE: South Africa: Cape Town: Arts and Sciences Program

North America
- Canada, UVA Exchange: McGill University

Oceania
- Australia, UVA Exchange: University of Melbourne
- New Zealand, UVA Exchange: University of Auckland
